

VIRGINIA ADVANCE MEDICAL DIRECTIVE

The Advance Medical Directive for Healthcare protects your right to refuse medical treatment you do not want or to request treatment you do want in the event you lose the ability to make decisions yourself.

The Virginia Advance Medical Directive lets you state your wishes about medical care in the event you develop a terminal condition, meaning it is probably that you will not recover from the condition and either your death is imminent or you are in a persistent vegetative state. This document also lets you name someone to make healthcare decisions on your behalf anytime you are unable to make your own medical decisions, not only at the end of life.

Note: This document will be legally binding only if the person completing it is a competent adult (at least 18 years old).

If you have a completed Advance Medical Directive (living will) or medical power of attorney, please bring a copy with you on the day of surgery, in the event of a patient transfer from Stony Point Surgery Center to another facility. The Advance Medical Directive will be maintained as part of the medical record.

The do not resuscitate (DNR) portion of the Advance Directive will be suspended during the patient's admission to Stony Point Surgery Center. It will be reinstated upon discharge from the Center or transfer to another facility.

Further information and forms are available in the Patient Information Center at Stony Point Surgery Center or visit www.vhha.com (Virginia Hospital & Healthcare Association).

Ownership

Stony Point Surgery Center (SPSC) is a joint venture between Richmond Eye & Ear Healthcare Alliance, Inc. (formerly Richmond Eye & Ear Hospital) and many of the physicians who practice at SPSC. Through a physician's ownership in SPSC he/she has direct input into the quality of care, quality of services, staff and operations. Physician owners pay particular attention to these issues because SPSC is a direct reflection upon them. Not all physicians who practice at SPSC are physician owners. The anesthesiologists are owners in SPSC. For more information about the physician owners, please ask your physician or contact Administration at Stony Point Surgery Center.

Stony Point Surgery Center is governed by a six member Board of Managers, licensed by the Commonwealth of Virginia as an Outpatient Surgical Hospital and is Accredited by the Accreditation Association for Ambulatory Health Care, Inc.

Your physician is an owner.
